Mr. Muliery notified a passing policeman, who rang up an ambulance from St. Vincent's Hospital. Two surgeons who responded entered the stable, looked at the sick man, then tried to make him stand up. This was impossible to the enfeebled patient, and he had to be supported in a sitting position while ammonia and other restoratives were applied.

These failed to revive him, and he was carried out into the stone-paved yard. Here the surgeons worked over him for a few minutes and finally relinquished the job, one saying: "This isn't a case for us. Bend for Bellevue." They then departed, leaving the man lying, still unconscious, on the cobbletones of the stable yard.

A stableman mercifully made an impromptu straw pillow for the man, and a Bellevue ambulance was summoned. After three-quarters of an hour he was semoved to that hospital. The surgeon in whose care he was taken away said it was undoubtedly a case of absolute survetton, and that there was little hopes for the sufferer.

tative of the Brewers.

No Enthusiasm.

The nomination by the chief Tammany organ of Comptroller Ashbel P. Fitch for Mayor has aroused resentment and opposition in Tammany Hall against such a course. No politician or public official has got himself disliked a quickly as Mr. Fitch.

Although Mr. Fitch has repeatedly declared that he is not a candidate for Mayor, the politicians, nevertheless, believe that he is laying pipes for the nomination. He is the brewers' candidate for Mayor. The brewers would spend a great deal of money to secure From the heads of departments down

to the street-sweepers the Tammany politicians are opposed to Mr.Fitch. They say the brewers' interest get too many favors, and that the organization which placed him where he is is merely used by him as a vehicle to his ambition. Tammany men say that Croker made Tammany men say that Croker made a great mistake when he made Mr. Fitch Comptroller.

One great objection the Tammany men have against Mr. Fitch is that he talks too much, through the newspapers; that he rushes into print on the slightest provocation. He has particularly antagonized the friends of Ex-Comptroller Myers by trying to show that his administration of the Comptroller's office for the six months he has been in charge was superior to that of Mr. Myers's in six years. That is itself, it is said, is sufficient to kill his chances as a harmony candidate.

More galling still to Tammany men are efforts on Mr. Fitch's part to show that he does not wear a Tammany collar, when, in fact, it is known that Mr. Fitch is a member of Tammany Hall, and votes as a Tammany man in all matters of policy relating to the city government.

Mr. Fitch was nominated by Tammany Hall as a sop to the Germans, but the Germans will have none of him as a Mayoralty candidate either. The German-American Reform Union, the representative organization of German voters in the city, has declared in favor of a combination candidate who is not tainted with Tammanyism.

There is no doubt now that the anti-Tammany factions will carry out the idea first advanced by the Independent County Organization, to unite on a candidate for Mayor. The Independent County Organization has grown numerically. Its leaders estimate that they will average 1,000 votes in each of the thirty districts. United with the anti-Tammany Democracy, German-Americans, they are confident they will beat any combination Tammany and the State Democracy may make. great mistake when he made Mr. Fitch
